RX COVID-19 SAFE EVENT PLAN

The health & safety of our attendees, partners and staff remain our top priority. At RX, it is important that we demonstrate social responsibility in staying vigilant and taking enhanced measures at our events.

➢ At the company level, the RX Global Security Compliance Team has developed a 5-Point Safety Plan that looks at Collaboration & Engagement, Risk Management, Planning, Communication and Safeguarding Measures at our events

➢ At the country level, RX Singapore has consistently monitored the COVID-19 situation and followed regulations and advice provided by the Ministry of Health as well safety measures put up by the Singapore Tourism Board (STB) for the MICE Industry.

➢ RX Singapore has also attained the SG SafeEvent Certification managed by the Singapore Association for Convention, Exhibitions Organiser & Suppliers (SACEOS) that is issued to enterprises that uphold the highest standards of safe management practices to deliver confidence to visitors and organisers in the Conduct, Construct and Compliance of safe events in Singapore

RX endeavors to provide a safe environment for our attendees, speakers, staff & suppliers, minimizing the risk of transmission of COVID-19 at our events

SAFE WORK PRINCIPALS

The below provides an overview of the measures that RX has undertaken in order to provide a safe and clean environment for all exhibitors and visitors attending APM 2022.

Pre-show planning

1. Conduct Risk Assessment

2. Pre-show meetings with contractor, suppliers, venue, to discuss move in schedules, floor plans & covid safe plans

3. Only official contractors allowed to minimize too many parties entering the hall during build up

Exhibitors & Visitors planning

RX will update exhibitors and visitors planning to attend APM with pre-show communications and the following points have been considered when developing a COVID safe environment:

1. Pre-show communications via email and/or EDMs and APM website

2. Registration Information

3. Health and safety signage on arrival and at the show entrance

4. Covid awareness signage

5. Environmental hygiene and sanitation practices

6. Social distancing signage

7. Mandatory face masks policy

Security

1. Security/staff on all entry and exit points

2. Manage/minimise queues at registration area

3. Monitor visitor numbers

4. Safe Distancing Ambassadors/ushers to rove all areas to ensure social distancing is observed

Technology & Equipment

1. Contactless Registration

2. Trace Together Safe Entry App

3. Lead Retrieval System to minimize contact

Environmental Hygiene

Hygiene protocols will include:

1. Provide hand sanitizers at various locations throughout the show

2. Extra staff to clean, disinfect and monitor high touch areas and surfaces

3. Advisory signage on hygiene throughout the venue

4. Air supply monitored and managed to maximize circulation.

Food Service

Food Services will be operated by the venue in a safe manner considering the following:

1. Increased cleaning and sanitisation

2. Spaced seating

3. No self serve

SAFE MANAGEMENT MEASURES @ APM 2022

- All staff have been briefed and trained on the prevailing Safe Management Measures deployed at the event

- APM is opened to the fully vaccinated (i.e. has received the full regimen of either Pfizer-BioNTech/Comirnaty, Moderna, or WHO EUL vaccines3) where records have been captured in Ministry of Health (MOH)'s national IT systems*

- Pre-Event Testing will be conducted. Details to be released closer to date

- APM will refuse entry to any contractor, exhibitor or visitor who present symptoms consistent with COVID-19

- Deployment and use of TraceTogether (TT)-only SafeEntry check-in for entry into and exit from the event venue

* *Travellers who are vaccinated overseas should present your vaccination certificate(s) to the ICA officer at immigration clearance in order to get the overseas vaccination records reflected electronically in their HealthHub or TraceTogether apps to show on demand to be eligible for VDS. For more information, please refer to https://safetravel.ica.gov.sg/health/vtsg#VDSMM*

SAFE MANAGEMENT MEASURES @ APM 2022

Social distancing and avoid body contact

Mandatory for all personnel to put on mask

Separate lane for entry and exit where possible

Use of technologies such as: contactless registration, Lead Retrieval Systems, Trace Together Safe Entry App

Engagement of Safe Event Ambassador and ushers to ensure that criteria are being met & executed

SAFE MANAGEMENT MEASURES @ APM 2022

Practice high level of hygiene (including cleaning of common surfaces and personal hygiene). To conduct disinfection after show closes daily

Plan for isolation rooms near exit point as a backup in the event where there are suspected/emergency cases.

Develop an emergency route for suspected case to exit

Your safety is at the forefront of all our planning. While our guidelines & plans reflect the essential role that RX & it's suppliers play to help protect the health and safety of our customers and our employees, it is a shared responsibility for everyone onsite to uphold and adhere to the rules & guidelines in order to safeguard everyone.

THANK YOU
